Civil Air Patrol Wing Management Utilities

Welcome to the Civil Air Patrol Wing Management Utilities Home Page. The Wing Management Utilities (WMU) represent a set of forms and utilities to assist in the automation of tasks associated with CAP Operations and Emergency Services.

There are two general categories of the utilities available for your use. These are the Web WMU and the Stand-Alone IMU. The IMU can be downloaded from the WMU downloads page.

The server is not handling Netscape browser users correctly. Please use Internet Explorer as the browser for the WMU.

<h4><u>Web WMU</u></h4> <p>The Web WMU provides CAP members with a tool to maintain information required for CAP operational missions. It is an on-line tool intended to provide individual members with the ability to examine and update personal and pilot information and to provide unit/wing/region staff with tools to provide certifications and specialty qualifications. The WMU flight release functions support upload to WMIRS.</p> <p>The Web WMU requires a connection to the internet using the Microsoft Internet Explorer web browser.</p>	<h4><u>IMU</u></h4> <p>The Stand-Alone IMU provides a set of utilities to automate and reduce paperwork during the execution of actual missions. Information is download from the Web IMU prior to mission execution and mission results can be uploaded back to the Web MMU for archival and member currency updates.</p> <p>The Stand-Alone IMU runs on a computer that is running Windows 98/2000/XP or NT. The Microsoft .Net Framework is required. Multiple computers can be networked to support the requirements of a</p>

WMU Data synchronized with NHQ: 07/07/2007 5:02:55 AM (Central Time)

MIMS Update Note: WMU achievement information is transferred to MIMS: 1) Whenever the member ES Specialty data is updated; 2) whenever a WMU new style CAPF 101 card is printed; 3) whenever a final CAPF 100 approval is generated. Task data (including pilot data and online exam completion) is downloaded from MIMS (a one day delay is used - see the synchronize date above) each time that a member logs onto the WMU or whenever a new member is selected. Task data is not currently uploaded to MIMS but this feature should be available soon.
